

Bubo Defense | Capability Statement

What do we do?

Generative AI and Multimodal AI Innovation

Bubo provides rapid delivery of AI agents to market.

- AI Task Bots, Agents & Personalized Concierge
- Enterprise AIOps (Agent Factory)
- Multimodal AI Solutions

A New Kind of Sentinel

IEM (Intelligent Email Management) via mxHERO

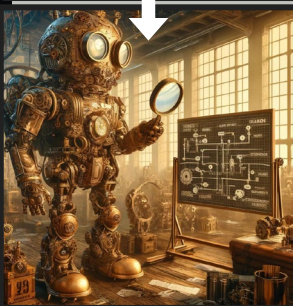

Bubo provides platform architecture (Mail2Cloud via mxHERO) enabling real time and at rest email capture for content silo elimination and unstructured data convergence supporting security and workflow automation used to power intelligent use cases.

- Data convergence and digital hygiene
- Supports email body, metadata and attachment captures from agency and enterprise email systems for content cloud or vector targeting
- Extending AI capabilities to be inclusive of email's unstructured data

2023

AI Agents (Task Bots)

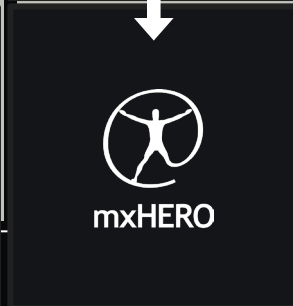

GenAI Analysis, CoPilots, Task Agents, LLMs, Human+robot Instructional Design, AI Media & Content Development

2024

mxHERO (IEM Digital Bridge)

IEM (Intelligent Email Management), Data Infrastructure & InfoSec, Knowledge Graph (Vector, RAG) LLMs, Cloud Content Systems, Smarter CoPilots, Task Agents, Tailored Concierge

2025

Agent Factory (Enterprise AIOps)

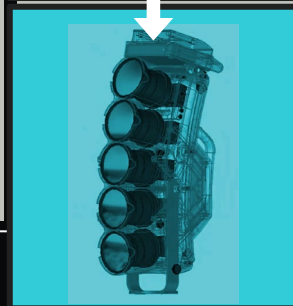

Enterprise AI Accelerator, Industrialized AI operations for any organization. Either directly as a service or embedded with customer teams

2026

Multimodal UI Solutions

Interfaces that integrate multiple forms of interaction, such as text, voice, and gesture, simulated environments, synthetic feedback, IoT and robotics

Joint Ventures | Partner Ecosystem

We are a consortium of builders, working together with our customers and partners to deliver innovative solutions that accelerate customer outcomes. We leverage strategic relationships and the world's leading technology platforms to deliver value. Visit us at: www.bubodefense.com or scan the QR code above for more information.
